DOG & CAT PUZZLE GAMES

IT'S FUN, IT FEEDS, IT'S A CHALLENGE YOUR DOG NEEDS.

Invented by Nina Ottosson, enrichment puzzles provide mental and physical stimulation for your pet. We have different levels to challenge and exercise your pet's mind. Play by the rules - always supervise and teach your pet the rules. It's hide and seek with treats - pets love it!

I created the category of puzzle toys more than 30 years ago, when I had two small children and needed a way to keep my dogs engaged.

I realized that many people had the same need, so I started developing more games in different difficulty levels to suit all dogs regardless of age or size.

My philosophy is that the dog has four legs and one head, and all five need activity in different ways. I always develop the products together with my dogs and other dogs, with their natural movements and instincts in mind.

Dogs love puzzle solving! It keeps them busy and out of trouble, in a fun and challenging way.

I continue to be inspired by all the success stories from around the world, of dogs who have become happier, healthier and better behaved by using my products.

I hope you will have as much fun with my products as I have had making them!

All the best,

Nina
